

Thick-film zinc repair compound LZ-09

Zinc repair compound, light silver, 1-component.

Application	For repairing flaws on hot-dip galvanised steel parts, moreover for galvanised surfaces damaged by grinding or welding, and for non-galvanised small steel parts, that are to be matched to galvanized constructions.
Note	According to the requirements of standard DIN EN ISO 1461 edition 2022-12 and DIN EN ISO 3549.
Properties	 excellent corrosion protection different colour shades easy application best praxis high Zinc content
Delivery sizes	100 ml 250 ml 500 ml 1,0 l 2,5 l 5,0 l 12 kg
Colour shades	Available in 6 different shades from light to dark, see ReiColor colour chart no. 6.
Product types	LZ-09.00.0000.0 light LZ-09.00.0001.1 light LZ-09.00.0002.1 middle LZ-09.00.0004.1 middle LZ-09.00.0008.1 dark LZ-09.00.0016.1 dark
Gloss level	matt
Application rate	approx. 8 m²/l
Density	approx. 1,2 kg/l
Storage stability / shelf-life	Min. 3 years at room temperature and dry storage

Working instruction	Stir thoroughly before use.
Substrate preparation	Bottom chord clean thoroughly before applying. Thoroughly remove loose parts such as rust, white rust, scale, carbon black, grease and other contaminations.
Application method	Undiluted mainly by brushing and rolling.
Application temperature	The temperature of the zinc bottom chord should be between +5°C and approx. + 50°C. Especially at deep temperatures it is to be paid attention to the cool zinc surfaces neither being covered with condensate nor with frozen dew. Otherwise there might arise spallings after overpainting the surface. In case of very high temperatures the dissolvents flash off too quickly due to the hot surface. As a consequence further processing of LZ 09 is not possible any more.
Solvents	ReiColor VE-50, ReiColor VK-30 or ReiColor VK-80
Dry film thickness	100 µm per application
Drying method	air drying Dust dry after approx. 1 hour. Recommended drying time: over night.
Over-paintable	after complete drying, e.g. with ReiColor LZ-80 , ReiColor ZY-20 , ReiColor ZL-22
Safety instructions VOC	Cat. A/i, 500 g/l (2010). This product contains 500 g/l VOC max.
Hazard notes	Please observe technical data sheet and safety data sheet before use.
